

ACKNOWLEDGEMENT

We have immerse pleasure in expressing our sincerest and deepest sense of gratitude towards our guide Prof. Foram Chudasma for the assistance, valuable guidance and co-operation in carrying out this project successfully. We have developed this project with the help of faculty members of our institute and we are extremely grateful to all of them. We also take this opportunity to thank Head of the Department Prof. Puja Shah providing the required facilities in completing this project. We are greatly thankful to our parents, friends and faculty members for their motivation, guidance and help whenever needed.

ABSTRACT

The Doctor's Appointment System is a web-based application designed to streamline the scheduling and management of medical appointments. This system addresses the challenges faced by patients and healthcare providers in coordinating visits, reducing wait times, and enhancing patient satisfaction. By providing an intuitive interface, patients can easily register, book appointments, receive reminders, and manage their health records online. Healthcare professionals benefit from the ability to manage their schedules, track patient information, and communicate with patients efficiently. Key features include user authentication, appointment scheduling, notification systems, and administrative tools for managing patient data. The system prioritizes security and privacy, ensuring compliance with healthcare regulations. This application aims to improve the overall efficiency of healthcare delivery, minimize administrative burdens, and enhance the patient experience through a user-friendly platform. Ultimately, the Doctor's Appointment System serves as a vital tool in modern healthcare, facilitating better communication and accessibility for both patients and providers.

	INDEX.....	III
	LIST OF FIGURES.....	IV
	LIST OF TABLES.....	V
1.	INTRODUCTION.....	10
	1.1 Purpose	
	1.2 Scope	
	1.2.1 current scope	
	1.2.2 future scope	
	1.3 Description	
	1.4 Objectives	
2.	TOOLS AND TECHNOLOGIES.....	13
	2.1 Technologies	
	2.1.1 Front-end technologies	
	2.1.2 Back-end technologies	
	2.2 Project planning	
	2.2.1 Project development approach	
	2.2.2 Milestone and Deliverables	
	2.2.3 Group Dependencies	
	2.3 Project Scheduling	
	I. Work breakdown structure	
	II. Activity network representation	
3.	SYSTEM REQUIREMENT STUDY.....	19
	3.1 User characteristics	
	3.2 Software and Hardware Requirements	
	3.2.1 Software Requirements	
	3.2.2 Hardware Requirements	
	3.2.3 Functional Requirements	
	3.2.4 None Functional Requirements	
	3.3 Constrains	
	3.3.1 Parallel operation	
	3.3.2 Reliability Requirements	
	3.3.3 Criticality of Application	
	3.3.4 Safety and security consideration	

3.3.5 Hardware limitation	
3.3.6 Regulatory policies	
3.3.7 User training and adoption	
3.3.8 Cost constraints	
3.4 Assumption and dependencies	
3.4.1 Assumptions	
3.4.2 Dependencies	
4. SYSTEM ANALYSIS.....	24
4.1 Study of current system	
4.2 Modules and functionality of proposed system	
4.3 Feasibility study	
4.4 Requirements validation	
4.5 Class Diagram	
4.6 System Activity	
4.6.1 Use case diagram for admin	
4.6.2 Use case diagram for patient	
4.7 Sequence Diagram	
4.7.1 Sequence diagram for admin	
4.7.2 Sequence diagram for patient	
5. Database Design.....	34
5.1 Database Design	
5.1.1 Login Details	
5.1.2 Patient details	
5.1.3 patient contact details	
5.1.4 Call Log details	
5.1.5 Appointment details	
5.1.6 patient payment details	
5.1.7 registered details	
5.2 Entity Relationship diagram	
5.3 Data Flow diagram	
5.3.1 Context level	
5.3.2 Level 1 DFD for online Appointment booking system	
5.3.3 Level 2 DFD for online Appointment booking system	
5.3.4 Level 3 DFD for online Appointment booking system	
5.4 Activity diagram	
5.4.1 Activity diagram for admin	
5.4.2 Activity diagram for patient	

6.	IMPLEMENTATION STANDERD.....	46
6.1	Implementation Environment	
6.1.1	Multi user	
6.1.2	GUI based	
6.2	Security Features	
7.	TESTING.....	51
7.1	Testing plan	
7.1.1	planning steps	
7.2	Testing strategies	
7.3	Test cases	
8.	LIMITATION AND FUTURE ENHANCEMENT.....	58
8.1	Limitations	
8.2	Future enhancement
